HORIZON

PRODUCT DESCRIPTION

- Impact modified polycarbonate base and diffuser.
- UV stabilized.
- Fixing tabs on the diffuser helps it to locate into the base, prevents 'slipping', and ensures no damage is inflicted during maintenance.
- 2 x 20mm conduit entry points.
- Available with our high-performance Lumaax Diffuser TM.
- Ability to metallize the rim and the base will give the look of a metal enclosure without the high cost.
- Range of decorative trims available to transform the look of the enclosure.
